GLENNDALÉ RADIANT — the outstanding summer yearling bull in our show herd last year. Won the Junior and Reserve Grand Champion at the Missouri State Fair. Beaten in class at the State Fairs only once, has developed extremely satisfactorily and will take a real bull to defeat him in 1954. He has been used in the herd 100%, certain and above all he is from Imported Sire and Dam. Study his pedigree, look him over he is our idea of a shorthorn bull. He can work improvement in the best herds, your weight for age in a very soggy package, I believe he is the bull you should own. He would not be for sale only we have the Lmp. in Dam bull, Missouri State Fair Grand Champion in service.

GOLDEN RULE PRINCE — His imported-in-dam sire by one of the best bulls in Scotland out of a granddaughter of Cruggleton Perfect. His dam is as good a cow as walks. Most everyone makes the statement that they don't want to buy breeding cattle that are fat, but they usually end up buying the fat ones. Here is a calf that is not fat and presents an opportunity for someone who has the ability to recognize a real bull in moderate flesh.

MISSOURI STATE SHORTHORN

Missouri State Department of Agriculture Awards

The State of Missouri, Department of Agriculture, will award to all animals in each class that can qualify as blue ribbon, red ribbon, and white ribbon animals, their respective earned ribbons and a cash premium for Blue, for Red, and for White.

These awards are made possible through an appropriation by the Missouri Legislature to encourage the production, distribution and use of better breeding animals in Missouri.

BLUE RIBBON Animals are excellent individuals.

Only animals of outstanding quality, unusually good type, symmetry, and conformation, in sufficiently good flesh and adequately fitted to demonstrate fully their qualifications will be placed in this group. These are animals of unusual merit that would in every case be a valuable addition to the top breeding herds of the state.

RED RIBBON Animals are superior individuals.

Only animals of superior quality, of good type and without, any major defect, plainly demonstrating the superiority of their qualifications will be placed in this group. These animals should be sufficiently good to improve any commercial herd and most small breeders' herds.

WHITE RIBBON Animals are good individuals.

Animals of somewhat less desirable type and with one or more rather objectionable characteristics may be placed in this group. These are animals that would improve commercial herds and would in every case be superior to grade and scrub animals.

Animals which are not superior to high grade stock will be unclassified.

Rollo E. Singleton of the Livestock Division will distribute the awards at the show starting at 9:00 a.m. on Sale Day.

Missouri Shorthorn breeders have never offered as many herd bull prospects and outstanding breeding females as will be found in this sale at Marshall.

It is a topnotch quality offering with cattle sired by outstanding bulls and out of some of the greatest females in the land. Here is a tip to careful buyers . . . it has been terribly dry as everyone knows, in Missouri the past year, and feed has been scarce and high . . . some of these cattle may not carry the condition and bloom to make them sell for all they are worth. But the quality, the individuality, and the proper ancestry to guarantee prepotent breeding power is all there. Then too, many buyers have found from years of experience that Missouri is always the place to buy top Shorthorns worth the money.
